Nearly 500 Go by Special Train to Holy Name Demonstration In Providenc-Death of Miss Amelia A. Hald-Lorraine Company's Prizes for Best Kept Yard and Flower Gardens-Card-Woodburn Wedding.

League to a return to the old custom of having the annual muster on Labor Day, and to hold it in Providence, and no more at the Kingston fair grounds, as there is dissatisfaction with the method employed at the recent muster at Kingston. According to the decision of the judges, the Fire King, of Pawtuxet, was the only machine that played a stream on the measured platform and was given the first prize of \$150 on a play of 154 feet 10 3-4 inches. The remaining Miss Amelia A. Hall died Saturday morning at the home of her sister. feet 10 3-4 inches. The remaining \$150 of prize money was divided equally among the other seven engines that competed, each receiving \$21.43. As a matter of fact the Westerly Veteran Firemen's association, Star, should have received the second prize of \$100, as it was the only other engine to have the stream measured. The Star threw water eight inches The Star threw water eight inches on the paper, giving an apparent play of 150 feet and eight inches, but a take-off of three feet and five and a quarter inches at the nozzle, cut that record to 147 feet 2 3-4 inches, and the judges ruled that the Star had not played the requisite number of feet and so should drop back in the "also ran" (lass

played the requisite number of test and so should drop back in the "also ran" class.

According to the records of the New Engined States Firemen's League and the Rhode Island State League and several open tournaments, it has been customary to allow every engine a mark, whenever possible. The league rulest however, provide that only the water that actually drops on the paper on the measuring platform shall be measured, and that the net play shall be computed by adding or subtracting any drawback or overlap there may be at the pipe. The league rules call for 150 feet between pipe platform and the paper, and the custom has always been to allow a mark to every machine that succeeded in getting a paper, and the custom has always been to allow a mark to every ma-chine that succeeded in getting a drop of water on the paper, even though the take-off might reduce the below the 150 mark.

Although the war department has decided to hold the national rifle matches this year at Jacksonville, after having declared the event off earlier in the season, Rhode Island will not send a team. Preparations were begun early in the target season to select a team and the conditions were published, but when the matches were declared off nothing more was done published, but when the matches were declared off nothing more was done in that line and the question of a state team was abandoned. The rifle shooting season of the Rhode Island National Guard closed September 16 and the range was dismantled. To attempt to select it team now would mean a lot of trouble and expense and with no prospect of securing a satisfactory team. There has been no training for a team and besides several of the state's best shots have been at the Mexican border during the greater part of the rifle shooting season.

The Rhode Island and Massachusetts Christian conference, in eighty-first annual session, will meet in Providence next Tuerday and Wednesday, in the Elmwood Christian church. The opening session Tuesday morning will consist for the most part of the routine business, and formal organization of the conference with an address on The Question of the Hour, by Rev. J. G. Dutton, pastor of Broad Street Christian church, Westerly, A discussion of The Church and he shipyard.
